PROFESSIONAL SUMMARY

CEO of Labh Enterprise with a technology foundation built across cybersecurity consulting and AI/ML development, now leading the digital transformation of a family textile business. Driving the integration of AI automation, ERP/CRM systems, and structured operations into a legacy manufacturing and trading enterprise, while building products through LabhTex Consulting to strengthen and scale Labh Enterprise's operations.

EXPERIENCE

LabhTex Consulting LLP

Jul 2026 – Present

Co-founder & CEO

Surat

- Building technology products — AI automation tools, digital workflows, and operational systems — to strengthen and scale Labh Enterprise's day-to-day working.
- Productizing the digital transformation playbook developed in-house: automation-first operations, structured SOPs, and AI-assisted decision-making for textile manufacturing and trading.

Labh Enterprise

Nov 2025 – Present

MD | CEO

Surat

- **Strategic Leadership & Org Building:** Structuring the company from the bottom up by defining department-wise workflows and establishing comprehensive company policies, procedures, and Standard Operating Procedures (SOPs).
- **Cross-Functional Management:** Overseeing day-to-day operations, directing Human Resources, Sales, and Marketing to ensure peak efficiency and a high-performing work culture.
- **Business Expansion & Digital Transformation:** Driving both local and global business expansion while aggressively scaling the digital footprint and launching products across e-commerce platforms.

Infopercept Consulting Pvt. Ltd.

May 2025 – Oct 2025

Cyber Security Consultant — Risk & Compliance

Ahmedabad

- Continued delivering ISO/IEC 27001 risk and compliance consulting engagements, evaluating enterprise security postures and standardizing security protocols across client environments.

WebOsmotic Pvt. Ltd.

Jan 2025 – Apr 2025

AI/ML Developer — Narad.io

Surat

- Designed enterprise Generative AI applications for GRC/InfoSec automation, building an end-to-end RAG pipeline (ingestion, chunking, embedding, vector indexing, citation-aware retrieval) with LangChain, ChromaDB, and Milvus.
- Automated InfoSec questionnaire completion and evidence retrieval via a security-questionnaire AI assistant, using prompt engineering and metadata-filtered search to cut manual review effort.
- Built async document-intelligence pipelines (Celery, Redis, Apache Tika, OCR) across PDF/DOCX/Excel and policy documents; improved parsing speed and API latency working directly with the founder.

Infopercept Consulting Pvt. Ltd.

Apr 2024 – Nov 2024

Cyber Security Consultant — Risk & Compliance

Ahmedabad

- Led ISO/IEC 27001:2022 implementations end-to-end (gap assessment, ISMS documentation, risk treatment, SoA, Stage-1/Stage-2 audit readiness) for clients including Shemaroo Entertainment, Torrent Pharmaceuticals, Nuvama, and Online PSB Loans Ltd.

- Authored ISMS policy suites and SOPs (Access Control, Incident Response, BCP/DR, Vendor Management) and reviewed cloud security controls across AWS IAM, EC2, S3, CloudTrail, and WAF.
- Partnered with CXOs (CISO, CRO, VP-IT) on enterprise/third-party risk assessments, UIDAI/Aadhaar compliance audits, and closure of security and compliance gaps.

SKILLS

Leadership & Operations	Org Building, SOP & Policy Design, Cross-functional Management, B2B Expansion
Digital Transformation	ERP/CRM Systems, WhatsApp Business/Meta Automation, Tally ERP, Brand Systems
AI Tools & Automation	Claude (Code, Projects, MCP), ChatGPT, Agentic Workflows, Chatbot Design (11za)
Programming	Python, C/C++, SQL, FastAPI, Flask, REST APIs
Artificial Intelligence	LLMs, RAG, Prompt Engineering, LangChain, HuggingFace, Sentence Transformers
Data & Infrastructure	ChromaDB, Milvus, Redis, Celery, Docker, PostgreSQL
Cyber Security & GRC	ISO 27001/27701/22301, ISMS, Risk Assessment, Internal Audit, Vendor Risk
Security Tools	Sophos, Zscaler, Netskope CASB, Imperva WAF, SIEM, DLP, IAM, AWS Security

PROJECTS

Job Matching and Interview Analysis | *Machine Learning, NLP, Generative AI* | 
Developed an AI-powered tool to match resumes and job descriptions, transcribe interviews, and analyze engagement.

Mobile Application Layout Detection | *Deep Learning* | 
Built a Flask-based interface for a custom EfficientNet model to predict UI layouts.

Anonymizing E-commerce Website Data | *Data Privacy, Machine Learning* | 
Applied K-anonymization to protect customer data while maintaining usability.

CRM Dashboard & ERP Data Migration | *Excel, Tally ERP, Business Systems*
Built a CRM dashboard from 845 customer records with state/agent/status filters, live KPI cards, and formula-validated filter logic; led a Tally ERP data migration and transformation across 156 vouchers, including voucher-type splitting, GST ledger mapping, and balance verification.

WhatsApp Lead-Automation Chatbot | *Conversational AI, Business Automation*
Designed and deployed a WhatsApp chatbot on the 11za platform to handle inbound leads from Meta click-to-WhatsApp ads, with tap-list interaction flows optimized for low-literacy buyers; built and debugged the underlying bot logic and structured conversation rules end-to-end.
